

Anti-Racism Education Policy

At Xavier College we encourage all students to be tolerant in all aspects of their lives.

This is in keeping with the policy statement of the Catholic Education Office of the Diocese of Parramatta, in a document specifically designed to address the issue of harassment on the ground of race or culture and entitled: "Anti Racism – Policy Statement and Support Documents". Xavier College is totally opposed to racism in any form – harassment, discrimination or vilification. It takes the view that racial and cultural diversity is a great gift to Australian society and its schools, and that differences should be celebrated.

At Xavier College we are committed as a school community that is inclusive and just.

Our own mission statement states that "We hope to create a reflective, prayerful and accepting environment" and "we hope to build a community which is Christ centred, practices forgiveness, understanding and is actively accepting of others".

We hope to create an environment that is free from racism in all our dealings and provide opportunities for anyone to report instances of anti racism via the appropriate protocols.
